SUMMARY

Experienced Java Full Stack Developer with a demonstrated proficiency in Java, Spring Boot, React.js, and comprehensive database management. Recognized for a proven track record in crafting scalable web solutions that prioritize performance, security, and user experience. Skilled in fostering team collaboration and driving project success through effective communication and leadership. Committed to ongoing professional growth, staying abreast of emerging technologies and industry trends to deliver innovative and impactful solutions that exceed client expectations.

PROJECTS

E-Commerce Website: ShopEase | May'2024

- **Domain:** Full Stack Development **Programming Tech:** ReactJS, Spring Boot, Tailwind CSS, MySQL, Razorpay API
- Engineered a resilient backend using Spring Boot for efficient data handling.
- Seamlessly integrated Razorpay API for secure transactions.
- Optimized MySQL database for enhanced performance and scalability.
- Implemented dynamic product categorization for improved user navigation.

Expense Tracker Pro | April' 2024

- **Domain:** Full Stack Development **Programming Tech:** HTML, JavaScript, Spring Boot, Thymeleaf, MySQL
- Developed an intuitive expense tracking web app using HTML, JavaScript, Spring Boot, and Thymeleaf.
- Implemented user authentication, expense management, and search functionalities.
- Ensured responsive design and efficient data handling for seamless user experience.
- Incorporated data visualization for better expense analysis.

Event Planner Pro | March '2024

- **Domain:** Full Stack Development **Programming Tech:** HTML, JavaScript, Spring Boot, Thymeleaf, MySQL
- Built an event planning platform using HTML, JavaScript, Spring Boot, Thymeleaf, and MySQL.
- Included user authentication, event creation, and search features for efficient event management.
- Ensured responsive design and optimized data handling for superior user experience.
- Integrated calendar functionality for easy event scheduling.

SKILLS

Programming Languages: JAVA , JavaScript

Web Technologies: HTML, CSS, ReactJS, NodeJS

Java Frameworks & Tools: Spring Boot, Spring MVC, Hibernate, Thymeleaf

Tools: Linux , Docker, Github

Database Management: MySQL, MongoDB

CERTIFICATIONS

- Java Programming by in28Minutes official | Udemy | Mar 2024
- Spring Boot 3, Spring 6 & Hibernate | Udemy | April 2024
- Data Structures & Algorithms by Pratik Singhal | Udemy | May 2024
- Mern Stack: Zero to Hero | Fifth Force | July 2022

ACHIEVEMENTS

- Contributed to "We Together" project
- Published two papers on Cloud Security
- Volunteered at Hindustan Blood Donation Club
- Organized guest lecture on AR/VR Technology
- Completed CodeBlocks Bootcamp.

EDUCATION

B-Tech Computer Science Engineering
Lovely Professional University
Phagwara, Punjab, India

Apr '20 - Aug'24
